ENGLISH TO ENGLISH ED.

Education makes up 22.6% of all English careers.

Transferable skills such as logical reasoning, critical thinking, and explanation help future teachers to become effective educators.

By being experienced writers, teachers can then use these skills to teach students the craft of writing.

Multi-cultural experiences through travel and ethnic literature classes prepare future teachers for encounters with students who come from a multitude of backgrounds.

Through the use of digital technology, teachers can prepare students for the ever changing social and professional climate.
